Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/629,595	Applicant(s) MOISY ET AL.	
	Examiner Jerry Redman	Art Unit 3634	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The status of the claims is as follows:

Claims 4 and 9 has been cancelled; and

Claims 1-3, 5-8 and 10-20 are herein addressed below.

Claims 17 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 17, line 2, and claim 18, line 2, the phraseology "a hidden frame type" and "a single flange type" is not readily understood by the Examiner. Is it a frame or not? Is it a flange or not?

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3, 5-8, and 10-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. patent to Gueneau et al. (5,319,883) in view of Weimar (4,542,610). Gueneau et al. (5,319,883) disclose an elastomeric/plastomeric weather-strip (See figure 8 below) forming a slideway, a web (3a) having two jaws forming a channel, a retaining abutment (62) contacting a projection (64) from the flange (40c), and two parallel branches (see figure below) having sealing lips (see figure below) contacting a window pane (G) and having a root with reduced thickness. Gueneau et al. (5,319,883) fail to disclose a reinforcement element.

Weimar ('610) discloses the use of a reinforcement element (18) located at any position along a weather-strip (column 5, lines 19-37). It would have been obvious to one of ordinary skill in the art at the time of the invention to provide the weather-strip of

Gueneau et al. (5,319,883) with a reinforcement element as taught by Weimar ('610) since a reinforcement element provides extra strength and rigidity to the weather-strip along portions which need strengthened.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. patent to Iida et al. disclose a weather-strip similar to that of the applicant's invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jerry Redman whose telephone number is 571-272-6835. The examiner can normally be reached on M-F from 8 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ms. Mitchell, can be reached on 571-272-7069. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
